

Ideas for the 2008 Triennial School Census

- Excel spreadsheet
- Current student enrollment whereby residences can confirm data
- Kindergarten registration
- Flyers
- Newspaper articles
- Stamped return envelopes
- Churches
- Pulling data from the student information system (SIS)
- Mail forms to home instruction, religious exemptions, private schools, and last year's graduates
- Using county owned vehicles with obvious ID on them
- Using uniformed deputies to visit reluctant households
- Utility bills
- Only sending one item to the home, usually with the youngest sibling
- Distribution through schools
- E911
- Press release
- Newspaper articles

- Run school database on graduates for past 2 years to check for those in the age range then mail form to last known address
- Include information of possible positive tax consequences of accurate census count for all citizens regardless of whether children attend private school or not
- Voter registration
- Completing the form with as much information as possible at the division level
